

Executive Summary — Live Quiz Platform

Prepared for: Petroleum Development Oman (PDO) · Technical & Commercial Overview · Version 1.1 · 22/07/2026

The **Live Quiz Platform** is an enterprise engagement, assessment, and knowledge-evaluation platform — a flexible, customisable alternative to general public quiz tools, purpose-built for corporate and institutional use. It supports HSE meetings, employee training, knowledge assessments, corporate workshops, onboarding, internal compliance checks, and recruitment assessments, delivered through a fully bilingual Arabic and English interface with complete right-to-left support.

Proven in production. The platform is in real operational use within **Abraj Energy Services** for HSE meetings and employee engagement activities — evidence that this is a production-proven solution, not a concept or prototype.

Platform	AI & Analytics	Delivery & Security
• Live hosting with QR-code, direct-link, and session-PIN joining • Real-time answers, live leaderboard, and top-three winners podium • Multiple question types, polls, timers, and configurable scoring • Question bank with subject, tags, difficulty, and bulk import (Excel / CSV / Word) • Custom branding, themes, and experience tailored to the institution	• Generate a quiz from a topic, PDF, document, URL, or pasted text • AI-assigned difficulty levels and answer explanations • All AI content presented for administrator review before use • Result summaries, participant rankings, and answer analysis • Export to PDF, Excel, and CSV with Arabic and English headers	• SaaS, on-premises, or hybrid deployment (React front end, Express.js and PostgreSQL back end) • Role-based access, secure data isolation, and administrative audit logs • Secure password hashing, TLS, and API rate limiting, developed with awareness of the OWASP Top 10 • Structured Bronze / Silver / Gold support with an agreed SLA • Phased delivery with training and knowledge transfer

Choice	Available options
Deployment	SaaS / Cloud · On-Premises · Hybrid
Commercial	Annual Subscription · Perpetual Licence · Enterprise Custom Development Partnership
Support	Bronze · Silver · Gold
Licensing	Unlimited named administrative accounts · unlimited participant access via session PIN, QR code, or direct link
Scale & hosting	400+ concurrent participants per live session (internal load testing; higher capacities subject to sizing and dedicated performance testing) · Altanfith Managed Cloud Infrastructure with SaaS, on-premises, and hybrid options
AI privacy	No participant personal data required; only the minimum required information transmitted; AI can be configured, restricted, disabled, or replaced with a private AI deployment per client requirements

Deployment, security posture, pricing, and SLA targets are confirmed during discovery; capabilities are described as product features, not certifications. Pricing is set out in the accompanying Commercial Quotation (ref. ATD-LQP-2026-003-Q). Version 1.1 — editorial corrections only; no scope or commercial changes.
