

AL TANFITH AL DWALIAH SPC

LIVE QUIZ PLATFORM

Commercial Quotation

Prepared for: **Petroleum Development Oman (PDO)**

Reference: **ATD-LQP-2026-003**

Version: **1.0**

Date: **22/07/2026**

1. Quotation Summary

Al Tanfith Al Dwaliah SPC is pleased to present this commercial quotation for the **Live Quiz Platform** to **Petroleum Development Oman (PDO)** — an enterprise engagement, assessment, and knowledge-evaluation platform, offered as a flexible, customisable alternative to general public quiz tools, and already proven in real operational use.

This quotation is a standalone commercial document. It accompanies, and should be read together with, the full technical and commercial proposal (*Live Quiz Platform — Technical & Commercial Proposal*, reference **ATD-LQP-2026-003**), which sets out the functional scope, technical architecture, deployment options, cybersecurity approach, delivery methodology, support model, and legal terms in full. Where this quotation and the full proposal refer to the same item, the proposal is the definitive description of scope.

All figures in this document are editable placeholders, shown to illustrate the pricing structure only. Final pricing for **Petroleum Development Oman (PDO)** is confirmed after the discovery phase described in the full proposal, once the factors listed in Section 4 (Pricing Methodology) are known. This quotation is valid for **30 days** from **22/07/2026**, as set out in Section 6.

Quotation at a glance	
Solution	Enterprise engagement, assessment & analytics platform — Live Quiz Platform
Commercial models	Annual SaaS subscription · perpetual licence · enterprise custom development partnership
Currency	Omani Rial (OMR), exclusive of applicable taxes unless otherwise stated
Pricing status	Placeholder structure only — final pricing confirmed after discovery
Validity	30 days from 22/07/2026

2. Pricing Tables

The Live Quiz Platform is offered under three distinct commercial models, so that **PDO** can select the ownership, cost, and delivery structure that best fits its procurement approach. The subsections below summarise each model; the comparison table that follows sets them side by side. All amounts are shown as **OMR [TBC]** or **[TBC]%** placeholders and are provided to illustrate the pricing structure only.

2.1 Model A — Annual SaaS Subscription

An annual, subscription-based model in which Altanfith hosts and operates the platform on **PDO's** behalf. Includes: annual licence; cloud hosting; maintenance; security updates; backup; monitoring;

support; standard upgrades; unlimited named administrative accounts and unlimited participant access (see Section 14 of the full proposal), with an agreed number of sessions; an AI usage allowance, with optional overage pricing; customisation priced separately from the base subscription.

Item	Price
Annual Subscription	OMR [TBC]
AI Consumption Allowance	[TBC]
Overage (beyond agreed usage)	OMR [TBC]

2.2 Model B — Perpetual Licence / One-Time Purchase

A one-time purchase model suited to organisations that prefer to own the software outright. Includes: one-time software licence; deployment; initial configuration; training; documentation; an optional source-code licence; optional source-code ownership; optional annual maintenance, recommended at **[TBC]%** of software value, payable annually in advance. Major new features are excluded unless separately agreed, and infrastructure costs are excluded unless explicitly listed in this quotation.

Item	Price
One-Time Licence	OMR [TBC]
Implementation	OMR [TBC]
Annual Maintenance (optional, recommended)	[TBC]%
Source-Code Licence (optional)	OMR [TBC]

2.3 Model C — Enterprise Custom Development Partnership

An ongoing partnership model for organisations requiring deep customisation and integration work. Includes: a discovery workshop; customised workflows; custom reports; system integrations (single sign-on, Microsoft Entra ID / Active Directory, SAP SuccessFactors (or other HR systems via supported integration methods), LMS, Microsoft Teams, Power BI); dedicated support; phased delivery; change requests handled and quoted separately; and dedicated development hours or a retainer arrangement.

Item	Price
------	-------

Discovery Workshop	OMR [TBC]
Custom Development Day Rate	OMR [TBC]
Monthly Retainer	OMR [TBC]
Integration Package	OMR [TBC]

2.4 Model Comparison

	Model A — SaaS	Model B — Perpetual Licence	Model C — Enterprise Partnership
Ownership	Altanfith-hosted; no source-code ownership by default	Client-owned licence; source code optional	Per agreed scope; typically Altanfith-hosted with client-owned outputs
Upfront cost	Low — annual subscription	Higher — one-time licence fee	Variable — scoped by engagement
Hosting	Altanfith Managed Cloud Infrastructure	Client-managed, on-premises or client-selected cloud	Per final design
Upgrades	Included, standard upgrades	Major features excluded unless agreed	Delivered as part of the ongoing partnership
Best for	Fastest implementation; lowest initial investment	Organisations preferring outright ownership	Organisations needing deep customisation and integration

3. Optional Items

The items below are available as optional additions to any of the three commercial models. They are priced separately from the base model and are included only where listed in the signed commercial agreement. All amounts are **OMR [TBC]** placeholders, confirmed during discovery.

Optional Item	Description	Status	Price
---------------	-------------	--------	-------

Training add-ons	Additional administrator, quiz-creator, or support-team training; recorded training; train-the-trainer sessions; Arabic and English training material beyond the base package	Optional	OMR [TBC]
Penetration testing	External penetration testing, available as an optional service and subject to a client-approved security scope	Optional	OMR [TBC]
Source-code licence	Optional source-code licence under Model B, where outright ownership or escrow is required; scope defined in the commercial agreement	Optional	OMR [TBC]
24/7 Gold support option	24/7 coverage under the Gold support package, with dedicated support contact and proactive monitoring, available as a purchasable option	Optional	OMR [TBC]
Additional language packs	Additional interface languages beyond the standard Arabic and English, subject to translation and layout review	Optional	OMR [TBC]

Arabic and English interface support, including full right-to-left (RTL) support for Arabic, is a standard, included capability of the platform. Additional languages are the optional item priced above.

4. Pricing Methodology

Final pricing for **PDO** is not a single fixed figure; it depends on a defined set of factors, confirmed during the discovery phase described in the full proposal. The placeholders in Section 2 are replaced with confirmed figures once these factors are known.

#	Pricing factor
1	Number of departments
2	Expected concurrent users
3	Number of live sessions
4	Hosting model (cloud, on-premises, or hybrid)
5	Data residency
6	AI usage

7	Level of customisation
8	System integrations
9	Support SLA
10	Cybersecurity requirements
11	Source-code requirements
12	Reporting requirements
13	Language requirements
14	Training requirements
15	Project duration

5. Commercial Terms

Proposed terms — subject to negotiation. The terms below illustrate the structure Altanfith typically proposes; final commercial terms for **PDO** are agreed in the signed commercial agreement.

- Currency: Omani Rial (OMR). Amounts are exclusive of applicable taxes unless otherwise stated.
- Milestone payment structure for project-based engagements: **40%** upon contract signature, **40%** upon User Acceptance Testing (UAT) approval, **20%** upon production go-live. This payment schedule is recommended and remains subject to commercial negotiation and mutual agreement.
- SaaS subscription (Model A): annual payment in advance.
- Maintenance (Model B, optional): annual payment in advance.
- Change requests: quoted and invoiced separately.
- Travel outside Muscat: charged separately, where required and agreed in advance.
- Third-party services: charged at cost, plus an agreed administration fee where applicable.

6. Validity & Acceptance

This quotation, including the pricing in Sections 2 and 3 and the commercial terms in Section 5, is valid for a period of **30 days** from **22/07/2026**. Beyond this period, pricing and availability are subject to reconfirmation by Al Tanfith Al Dwaliah SPC.

This quotation is accepted and agreed by the signatories below on behalf of their respective organisations.
